Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450**COMMENT ON STATEMENT OF REASONS FOR ALLOWANCE**

Sir:

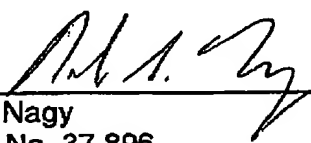

The Assignee thanks the Examiner for disposition examination of claims 1 - 25 in a Notice of Allowance mailed on July 21, 2005. Assignee agrees that these claims should be allowable over the references of record. However, the "allowable subject matter" delineated by the Examiner should be considered to be merely an example of what is covered by the claims. Accordingly, Assignee respectfully disagrees with the Examiner's reasons for allowance to the extent that such reasons may be construed to limit the scope of the claims in any way, be construed in any way that limits equivalents of claimed subject matter, or in any way creates any prosecution history estoppel.

In particular, in connection with Examiner's amendment following the telephonic interview with Assignee's representative on July 19, 2005, Assignee understands that Examiner has included limitations relating to rejecting *all* colliding access burst messages. However, Assignee respectfully submits that the disclosure of the present application may also support claims relating to rejection of at least one, one or more and/or at least some colliding access burst messages, and/or the like. Accordingly, Assignee accepts the Examiner's amendment without prejudice or estoppel to the extent that the Examiner deems such amendment to these claims makes these claims allowable, and reserves the right in the future to pursue claims directed to rejection of at least one, one or more and/or at least some colliding access burst messages, and/or the like.

Respectfully submitted,

Berkeley Law and Technology Group, LLC
